

## 60X30.8 | profilo lineare

Our aluminum profile with ceiling installation represents the ideal solution for modern and discreet lighting. Made from high-quality materials, the profile offers a combination of functionality and sophisticated design. With an internal width of 21 mm, the profile is perfectly suited to a wide range of applications, ensuring uniform light distribution and a feeling of elegance.

The anodized aluminum profile offers superior resistance to corrosion and exceptional durability, ensuring that the structure remains unchanged over time. The Silver, White or Black finish allows the profile to be integrated into different design aesthetics, ensuring versatility that adapts to any context. The opal polycarbonate diffuser ensures uniform diffusion of light, minimizing the glare effect and creating pleasant and comfortable lighting.

With a total power of up to 19.2 W/m, this aluminum profile is able to offer excellent ambient lighting, adapting to the specific needs of each space. The ceiling installation gives the profile a clean and integrated appearance, helping to create a bright and welcoming environment.
